Doors from the house through to the stunning adjoining chapel with its main room of 85m² and various ante rooms and a ceiling height of 8m with superb balcony on the first floor.

The second house, connected to the manor house by several outbuildings and storage rooms built around the turn of the century, also provides over 400m² of useable space and as well as incorporating a 3 bedroom apartment on its first floor of 150m². The ground floor and attic space are in need of renovation and connect to the Manor House via the attic space.

Independent from the other block of buildings, the 3 bedroom guest cottage dating from the 1980's has been entirely renovated with its own small garden and could provide a ready source of income.
